PRODUCT CATALOG

A TRADITION OF PERFORMANCE

For over forty years, Otis Technology has been the trusted source for weapons maintenance products. We are proud to support our men and women on the front lines and provide them with premier, quality products to keep their weapons functioning properly. We are honored that Otis weapons maintenance products are called out in the M4 Technical Manual on the Authorized Approved List.

Otis is a small business and our products are proudly made in the USA by hardworking men and women in Northern New York. We salute the brave members of our Military & Law Enforcement community on the front lines of freedom every day. Please contact our Military Sales Team for quotes.

ESSENTIAL WEAPONS CLEANING COMPONENTS

At the core of our Breech-to-Muzzle® cleaning kits are a number of unique components that work in conjunction with each other to ensure a proper clean each time. Here's the rundown of what each part is and does.

CLEANING PATCH

Attach to the slotted tip to form a perfectly circular cleaning swab for 360 degree coverage. Each patch can be used up to six times.

2" | 3" | 3" Panoply

PATCH SAVER®

Used in conjunction with the 3" patches and shotgun slotted tip, the Patch Saver® creates 360 degree coverage in shotgun barrels. Small Patch Saver® for 16, 20 and 28 GA Large Patch Saver® for 10, 12 and 16 GA

MEMORY-FLEX® CABLE

Together with the solid brass slotted tips, 100% cotton cleaning patches, a bore brush, and an all-in-one cleaner, lubricant, and preservative, you can now properly clean your firearm from Breech-to-Muzzle®. The aircraft grade flexible cables are coated so as to not damage the crown and have a 750lb pull strength. Compatible with all Otis cleaning components.

8" | 12" | 16" | 20" | 30" | 36"

Note: Some cables come with a slotted tip permanently affixed to one end for limited breech cleaning.

SMALL SLOTTED TIP

The small slotted tip is used for .22 - .27 cal firearms. Used in conjunction with 2" & 3" Cotton patches to create a cleaning swab.

LARGE SLOTTED TIP

The large slotted tip is used for .30 - .50 cal firearms. Used in conjunction with 3" Cotton patches to create a cleaning swab.

SHOTGUN SLOTTED TIP

The shotgun slotted tip is used for all shotguns. Used in conjunction with 3" Cotton patches to create a cleaning swab.

BORE BRUSHES

Otis brushes have a proprietary Tufcor® core wire that is corrosive-resistant with a tighter twist for better bristle retention and brush life. With twice the fill of other brushes and bristles right to the end, you get superior quality and precision cleaning every time. Available in nylon or bronze.

See page 33 for brush sizes

BORE MOP

Built with densely packed, highly absorbent cotton on corrosive-resistant Tufcor® core wire with 8-32 threaded ends. Used for cleaning debris from the bore or leaving behind a layer of lubricant.

CHAMBER BRUSH

The tapered bronze bristles scrub the chamber, neck and shoulder. The steel bristles at the base scrub the star chamber of the locking lugs. Standard 8-32 thread.

See page 32 for brush sizes

OBSTRUCTION REMOVERS

Used to clear the bore of mud, snow, dirt, or stuck cases. Concave so it does not hit the firing pin when trying to remove a stuck bullet and prevents the stuck round from mushrooming within the barrel. The obstruction remover also acts as a T-handle base.

Small | Large | Pistol

T-HANDLE BAR

T-HANDLE

T-HANDLES

The T-handle bar can be used with any of the Otis obstruction removers for added comfort while pulling a patch through from Breech-to-Muzzle®. Just insert the T-handle bar through the hole in the end of the obstruction remover/T-handle base; the T-handle is tapered so it will stop half way through.

For the T-Handle, put the end of the cable in the notch and pull.

NATO BRUSH ADAPTER

The NATO brush adapter is used to allow 8-36 threaded components to attach to Otis 8-32 threads.

STRAIGHT LOCKING LUG PICK

Engineered to clean in the tight crevices of a firearm.

CURVED LOCKING LUG PICK

Designed specifically for the locking lugs of an AR-style rifle with a 90 degree bend to clean the back side of the locking lugs.

LOCKING LUG SCRAPER

Designed specifically for the locking lugs of an M4/M16 with a 90 degree bend to clean the backside of the locking lugs.

BRASS SCRAPER

The brass scraper is used to clean carbon deposits and other debris from the bolt face, rails or any other flat surface on a firearm.

PIN PUNCH

Knock out pins with 3/32" pin punch.

MINI END BRUSH

This end brush can be used to lubricate the slide, but also has stiff enough bristles to dust off carbon and other loose debris.

8-32 THREAD CONNECTOR

The thread connector has an 8-32 thread and allows you to combine two Memory-Flex® cables together, increasing the length for longer barrels.

FEMALE & MALE ROD

The female and male rods act as a handle, and can be added onto any Otis component with 8-32 threads for additional length during precision cleaning.

SHORT AP BRUSH

Short All Purpose Receiver brush complete with male 8-32 thread so that it may be connected to any female accessory or used with the Ripcord® T-handle.

DUST BRUSH

The Boar Hair Dust Brush is intended for removing dust, sand & debris from various parts of the weapon.

LENS BRUSH

The Mohair Lens Brush is intended for removing dust from lenses and other optics.

LENS TISSUES

Otis Premium Lens Tissues are used to clean the lenses of your optics. They will remove fingerprints and water spots.

CHAMBER FLAG

Fits comfortably in most rifle and pistol chambers. It has an indestructible bolt rest, and allows you to flag an empty chamber to ensure it is safe. The chamber flag can be used in conjunction with all flashlights to illuminate the bore in dark or dimly lit conditions. Composed of fiber optic material, it can also be used with natural light.

BIO BASED CLP

Otis Bio Based CLP properly cleans, lubricates and protects all in one step. 0.5 fluid ounces

LENS SPRAY

Otis Premium Lens Cleaner is anti-fog, and is used for normal cleaning of your optic lenses. 0.5 fluid ounce spray bottle.

LENS CLEANING CLOTH

Perfect for wiping away smudges, dust and minor debris from optics lenses, binoculars, ear-wear, phone and tablet screens.

B.O.N.E.® TOOL (5.56MM)

#IP-246 B

NSN: 1005-01-647-0562

CLEANS BOLT, BOLT CARRIER & FIRING PIN OF AR STYLE RIFLES

The B.O.N.E.® Tool was designed specifically to clean carbon and fouling from the bolt carrier assembly area of AR style rifles. This quick-clean tool scrapes fouling from the bolt, bolt carrier and firing pin. Also includes an 8-32 threaded hole to act as T-handle. Available for 5.56mm or 7.62mm AR style rifles.

Note: While this tool fits many bolts flawlessly, it may fit some bolts better than others due to variance in bolts by different manufacturers.

STAR CHAMBER SCRAPER TOOL

CLEANS STAR CHAMBER AREA OF AR STYLE RIFLES

This tool quickly and effectively cleans the star chamber in just a few twists. It features a parkerized steel scraper to remove fouling build-up and felt cleaning pads to pick up the fouling loosened by the scraper. The coated brass nose piece centers the tool in the chamber for proper cleaning, while ensuring it won't scratch or damage the firearm. With 8-32 threads, a chamber brush or other scraper components can be attached to this tool for added cleaning.

Star Chamber Cleaning Tool (.223 cal/5.56mm / AR-15 platforms)	#FG-2715
Star Chamber Cleaning Tool (.308 cal/7.62mm / AR-10 platforms)	#FG-2717
.223 cal/5.56mm Star Chamber Cleaning Pads (12 ct.)	#FG-2715-PD B
.223 cal/5.56mm Star Chamber Pads (200 ct.)	#FG-2715PD-200
.308 cal/7.62mm Star Chamber Cleaning Pads (12 ct.)	#FG-2717-PD B
.308 cal/5.56mm Star Chamber Pads (100 ct.)	#FG-2717PD-100

Unscrew nose piece to assemble scraper or felt cleaning pad

Insert scraper into star chamber and twist to scrape

Replace with a cleaning pad and slide into position

Twist to clean. Repeat as many times as desired until clean

M4 AND M16 MAINTENANCE TOOLS

M249 SAW CLEANING & MAINTENANCE KIT

#MFG-M249-CY

CLEANS 5.56MM M249

- 8 1/16" x 3 3/4" Envelope Case
- M249 Sight Adjustment Tool
- M249 Multi Tool

BIG BORE CLEANING EQUIPMENT

CLEANS 105MM, 120MM OR 155MM ARTILLERY

The Otis Big Bore Cleaning Equipment is designed to clean and maintain artillery, mobile artillery pieces and main gun of tanks. The swab/brush combo cleans from Breech-to-Muzzle® and decreases the amount of personnel needed to clean the weapon platform. The swab features a sock over an expanding disc system that, when compressed, expands to fit the bore for a more effective clean. Available in 105mm, 120mm or 155mm configurations.

NON-STANDARD CLEANING KITS

CLEANS AK PLATFORMS

When conditions are subpar, deposits and fouling can build-up in your rifle in a hurry. Keep your rifle clean and clear with this compact and lightweight cleaning system. Even hard to reach areas, like the chamber, are quick and easy to clean with the flex adapter. Simply attach one end to the female rod and the other to the chamber brush so it can flex into the chamber for cleaning. Be sure to use the obstruction remover and t-handle for a better grip. Available in four caliber variations: 5.45 x 39mm, 7.62 x 39mm, 5.56 x 45mm, and 7.62 x 51mm.

GENERAL MAINTENANCE TOOLS

Securely and safely disassembly your weapon system

WISE SOFT JAWS

Composed of a non-slip rubber material, these soft jaws have the perfect balance of hardness to keep even the smallest parts clamped and flexibility to mold to the various shapes of a firearm. Softer than gun parts, these soft jaws will not mar or scratch gun metals. The rubber is oil, solvent and alcohol resistant and easily wipes clean. They have a top lip which not only helps protect the firearm but in conjunction with embedded magnets, also hold the Soft Jaws to the jaws of the vise.

DESCRIPTION	PART #	PRODUCT INFO
General Use	#FG-VSJ-GEN	Flat surface, barrel channels sized .625" and .750" for secure clamping of round objects such as bolts and barrels
Flat	#FG-VSJ-FLT	Large, flat surface to clamp large flat objects such as firearm receivers with total security
Remington 700	#FG-VSJ-R700	Features a barrel bracket cutout to fit the factory locking lug or any after-market barrel bracket up to .400" in thickness
Remington 1100	#FG-VSJ-R1100	Features a necessary contour which allows the Soft Jaw to clamp with even pressure on the barrel as well as the top rib
AK	#FG-VSJ-AK	Detailed contouring and rivet holes to perfectly fit and securely hold rifles of the AKM pattern, the most commonly found AK style (will not fit RPK pattern AK rifles)

BENCH BLOCK

#FG-BBLK-1

The block is the perfect balance of hardness to ensure minimal energy loss when punching out pins while also protecting your firearm. A variety of oversized holes are featured on the block to allow for pin removals sized 7/16" - 3/4" thus covering every firearm's needs. Flat and round pockets securely accommodate nearly any pistol slide, while the v-cut offers a stable surface for working with larger round objects such as a rifle bolt or top of a rounded pistol slide. The square hole is designed to assist while easily removing the rear sight from nearly any pistol. The block also features a magnet to store small parts such as springs and pins.

GUNSMITHING FILE SET

#FG-934

These hardened steel alloy files make the perfect addition to any work bench and make quick work of any project. With dipped handles that stand up to any job and provide easy maneuverability, superior grip and excellent control. Perfectly suited for precise work, the 6 Piece Needle File Set increases your accuracy during use while reducing hand and wrist stress. The included PVC pouch provides a storage option keeping your tools neatly organized and protected. Each piece is 5.5" long with 3.5" file length.

Includes one of each, round, half-round, flat, flat warding, square and triangular file

CHEMICALS, LUBRICANTS & PROTECTANTS

Clean, lubricate and protect your weapon systems

MISSION CRITICAL HIGH PERFORMANCE GREASE & LUBRICANT #FG-MCLGC

As a unique mix of aerospace-industry lubricants that was formulated specifically for firearms, MC-10 delivers unrelenting protection from -65° all the way up to 650°F. It doesn't look or feel like other formulas—and it doesn't break down like other formulas when things get heated. When the mission is critical, MC-10 delivers without compromise.

This combo package includes a 1 fl. oz. spray bottle of MC-10 high performance synthetic lubricant as well as a MC-10 high performance synthetic grease contained in a 3mL precision applicator pen brush. These formulas deliver the ultimate in friction protection and won't freeze, burn or carbonize – even in extreme temperatures. The grease pen delivers ultimate control to apply in precise areas such as the actions, triggers & slides.

BIO BASED CLP #IP-901-T-10

Otis Bio Based CLP cleans, lubricates and protects in one advanced formula. Remove carbon, powder residue and fouling from metal surfaces while penetrating into tight areas to reduce surface friction and leaving behind a thin film that seals out moisture to prevent rust and corrosion. Operates effectively in temperature ranging from -60°F to +160°F (-51°C to +71°C). Clean, lubricate, protect & get the job done, all in one!

UNIVERSAL GUN CARE PACK #SHF-CLP01

The three essential steps in the Pro-Care System in one convenient kit. MC-7 to clean your bore, FP-10 to lubricate and Rust Prevent to protect. This universal kit has all the necessities to protect any firearm.

RUST PREVENT 6 OZ. | #SHF-RP006

Shooter's Choice Rust Prevent is a superior moisture displacing agent that provides an ultra thin protective barrier that prevents rust and corrosion. Not only is this a must for serious gun maintenance it will neutralize fingerprint acids on all metals.

ALL WEATHER HIGH-TECH GREASE 10 CC | #SHF-G10CC

This synthetic grease effectively prevents metal damage in actions, bolts, frame rails and shotgun hinges/hardware. With the unique syringe applicator this odorless grease is easy to apply and will cling to metal surfaces for ultimate protection. Because of its formulation it will not gum-up, melt, stiffen or wash away and has an operating temperature range of -65°F to +350°F.

FP-10 LUBRICANT ELITE® CLP

FP-10 is an elite level lubricant that dramatically reduces friction and wear on moving metal parts. This formula will not build-up or change tolerances and operates from -49°F to +500°F and even helps prevent lead and copper from accumulating.

QUICK SCRUB III 15 OZ. | #SHF-DG315

When fast and convenient cleaning is important, there is no better than Quick Scrub III. This product is made to remove surface residue, powder and soft carbon without disassembly. For restoration of precision trigger pulls and trouble-free action, try this quick evaporating cleaner.

POLYMER SAFE QUICK SCRUB 12 OZ. | #SHF-PSQ12

This synthetic based cleaner is safe to use on almost any finish. From polymers to plastics this product is harmless and can be used on dipped or painted firearms as well as wood and synthetic stock models.

MC-7 BORE CLEANER

The MC-7 Bore Cleaner is the original and a staple for bore cleaning since the '80s. Highly effective in removing copper, lead, and carbon not to mention powder and wad fouling. This powerful cleaner can also be used on black powder guns.

2 oz. Bottle	#SHF-MC702
4 oz. Tin	#SHF-MC704
16 oz. Bottle	#SHF-MC716
1 Gallon	#SHF-MC7128

MC-7 EXTRA STRENGTH BORE CLEANER 12 OZ. | #SHF-MC7XT

As a result of constant testing and the pursuit to deliver the most effective products, MC-7 Extra Strength was born. As an aerosol formula, it is more efficient at breaking down harmful residues left behind in the bore. This product is also effective for black powder.

LEAD REMOVER 4 OZ. | #SHF-LRS04

Our lead remover is a specialized formula to remove lead, carbon and powder from all your firearms without the use of harsh abrasives or mechanical devices.

Reload on patches, brushes and more

ULTRASONIC CLEANING SOLUTION

#SHF-UCS128

This bio-degradable and non-toxic formula was specifically designed to be used in ultrasonic cleaning tanks. For dissolving oil, grease and powder build-up this non-corrosive product will do the job. This is a concentrated solution and can be diluted for use.

1/2 Gallon	#SHF-UCS64
1 Gallon	#SHF-UCS128

BIO-DEGRADABLE BORE CLEANER

Looking for an effective bore cleaner that's environmentally friendly? Shooter's Choice Bio Bore Cleaner does both. It effectively removes oil, grease and powder build-up and is non-hazardous. This product contains no petroleum type solvents and is biodegradable. Tough. Effective. Environmentally Friendly. Check, check and check.

0.5 oz Bottle	#SHF-BBC005
4 oz. Tin	#SHF-BBC4
1 Gallon	#SHF-BBC128

MAXIMUM STRENGTH COPPER REMOVER

Specifically formulated to attack copper and gilded metals left by jacketed ammunition. Our copper remover also does a phenomenal job restoring accuracy and performance to old or neglected firearms.

4 oz. Tin	#SHF-CRS04
1 Gallon	#SHF-CRS128

SHOTGUN & CHOKE TUBE CLEANER

12 OZ. | #SHF-SG012

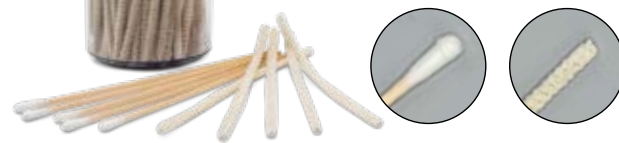

Engineered to deliver superior results on shotgun barrels especially choke tubes and ports. This cleaner removes plastic, lead and powder fouling as well as carbon build-up on operating mechanisms.

SWABS & PIPE CLEANERS

Perfect for precision gun cleaning on hard to reach spaces or optics. Gun cleaning swabs feature a thick and absorbent cotton swab and strong 6" wooden handle. Pipe cleaners feature flexible wire core and absorbent cotton bristles. 6" long and 1/8" diameter.

**Stainless steel for use on internal firearm parts only

HEARING PROTECTION

Small, portable hearing protection from 21 dB to 33 dB

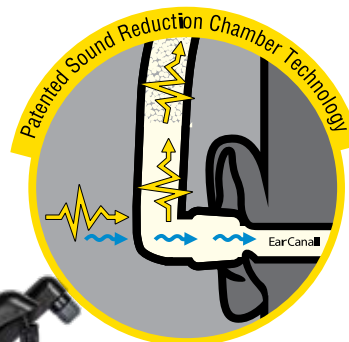

Eliminates stock interference • Cool and comfortable • No batteries required
Lightweight and collapsible • Adjustable to fit any shooter

Otis Technology presents a smarter way to protect your hearing while improving your response to range commands and other communication. Soft ear buds form a seal around the outer ear canal and connect to the unique sound reduction chambers. Because sound energy travels the path of least resistance, high-intensity sounds, like gunfire, funnel into the wider sound reduction chambers and away from your narrow ear canals. The chamber dampens, refracts and cancels harmful waves to produce a safe volume across all frequencies. So you can hear important safety signals or conversations without removing the Scout.

DESCRIPTION	PART #
Scout 26 dB	#FG-ESH-26
Scout 31 dB	#FG-ESH-31
Scout Replacement Cuffs (4)	#FG-ESH-C

FOLDS FOR
EASY STORAGE
IN RANGE BAG

33 DB EARPLUGS #FG-ESH-FPNC50

Simple, effective and portable, these Premium Foam Earplugs are perfect for the range, workshop, garage and more. Toss a 50 pair can in your range bag and you'll always have ear protection. As a bonus you'll also get a water-proof screw top canister that holds 2 Earplugs that can clip onto any keyring or strap.

RANGER 26 DB PASSIVE EARMUFFS #FG-ES26P-BK

You demand a lot from your hearing protection - not only does it need to protect your hearing, but it needs to be comfortable enough for all day wear and withstand the rigor you put it through. EarShield's got you covered with the Passive Earmuff. The folding design easily stores in your range bag and the soft ear cups & band make for a comfortable wear. The slim, low profile cups of the ear muffs are not only a sleek design but also limit interference with activities such as shooting. The noise reduction rating is 26dB NRR.

ALSO AVAILABLE IN ELECTRONIC AND BLUETOOTH MODELS.

CAPABILITY STATEMENT

Manufacturing capabilities

Otis Technology is a trusted source for weapons maintenance kits & accessories and has invested heavily to design and develop top quality, innovative products for our men and women on the front lines. With our machinery, technology and know-how, Otis Technology can support other manufacturers and business partners with a vast portfolio of services. Please contact us for more information on how we can assist you in your next project.

- Automated bagging / Packaging equipment
- Automated warehousing
- Automatic fill line available for different solvents
- Blister packaging
- Brush manufacturing
- Cable cutting and stripping
- CNC Swiss turning
- Full manual machine shop
- Injection molding machines
- Laser marking and printing
- Mill / Turn CNC machining center
- Quality assurance lab
- Textile and harness braiding
- Textile cutting
- Ultrasonic welding
- Wire EDM
