B.O.N.E.® Tool

#FG-246

NSN 1005-01-647-0562

Cleans Bolt, Bolt Carrier & Firing Pin of MSR/ARs

Designed specifically to clean carbon and fouling from the bolt carrier assembly area of MSR/AR style rifles. This quick-clean tool scrapes fouling from the bolt, bolt carrier and firing pin. Also includes an 8-32 threaded hole to act as T-handle. Also available for 7.62mm MSR/AR style rifles.

Star Chamber Scraper Tool

#FG-2715

Cleans Star Chamber Area of MSR/ARs

This tool quickly and effectively cleans the star chamber in just a few twists. It features a parkerized steel scraper to remove fouling build-up and felt cleaning pads to pick up the fouling loosened by the scraper. The coated brass nose piece centers the tool in the chamber for proper cleaning, while ensuring it won't scratch or damage the firearm. With 8-32 threads, a chamber brush or other scraper components can be attached to this tool for added cleaning.

M240 Multi-Tool

#FG-M240T2-B

Built for removing carbon build up from M240 weapons platforms. Includes specialized scrapers that clean the interior and exterior of the Gas Plug and Piston Cup, a flat scraper and a Hex Key for removing Picatinny rail panels. Closed tool measures 4 ¼ x 1 ¼ inches. Made from stainless steel and nylon with a black finish.

M249 Multi-Tool

#MFG-M249T2-B

For the M249/SAW/Minimi. Effectively cleans the interior and exterior of the gas block, piston cup and also includes a front sight adjustment tool and pin punch.
