A TRADITION OF PERFORMANCE

As a hunter or marksman, the shooting sports are more than just a pastime or hobby—they're a tradition and a passion. At Otis Technology, we feel the same way. That's why we've dedicated over ***40 years*** to the pursuit of your firearm's flawless performance in the field or at the range.

Since we introduced our first compact cleaning system in 1985, we've continued to pioneer the most innovative and advanced gun cleaning systems—answering the changing needs of shooters and hunters worldwide. Today, our Memory-Flex® cables, caliber-specific bore brushes and 100% cotton patches continue to ensure a proper Breech-to-Muzzle® cleaning, so you can be confident that your firearm is ready for action when you are.

This year, the legacy continues with the launch of the ***Otis FLEX System®***, a series of modular, stackable storage cases that allow you to customize cleaning based on your needs. Featuring ***over 70 SKUs,*** all proudly designed, engineered and built in the U.S.A.

Our commitment doesn't stop at just the shooting sports. We're also proud to be a supplier of choice for our men and women in law enforcement and the military—and will continue to proudly manufacture and assemble our products ***right here in the U.S.A.***

Essential Gun Cleaning Components

What's in your kit and what it does

Otis cleaning kits feature individual components which come together to ensure that you get a proper clean each and every time. Get to know each part and how it contributes to the well-being of your firearm.

Memory-Flex® Cable

The aircraft grade flexible cables are coated so as to not damage the crown and have a 750lb pull strength. Compatible with all Otis cleaning components.

NOTE: Some cables come with a slotted tip permanently affixed to one end for limited breech cleaning.

100 % Cotton Patches

Attach round patch to the slotted tip to form a cleaning swab, or use a square patch with a jag for total bore coverage.

Bore Brushes

Otis brushes are built with a corrosive-resistant core wire with a tighter twist for better bristle retention and brush life. Available in bronze or nylon.

Cotton Bore Mops

Otis mops have densely packed, highly absorbent cotton.

Pierce Point Jags

The pointed design keeps your patch centered and allows it to fall off easily once the jag exits the muzzle. The solid brass makeup means that the jag will not scratch or damage your firearm.

Patch Savers®

Used in conjunction with the 3 inch patches and shotgun slotted tip, the Patch Saver® creates 360 degree coverage in shotgun barrels.

Small, Large & Shotgun Slotted Tips

The small slotted tip is used for .22 through .27 caliber firearms while the large slotted tip is used for .30 through .50 caliber firearms. You'll never guess what the shotgun tip is used for. Used in conjunction with 2 inch or 3 inch Cotton Patches to create a cleaning swab.

Obstruction Remover

Used to clear mud, snow, dirt, or stuck cases. Available in two different sizes for small or large caliber firearms.

2-in-1 Fixed/Swivel T-Handle

A push of a button allows you to twist the rod for better bore engagement for grooved barrels or push through on smooth bore firearms

Straight & Curved Locking Lug Picks

Straight picked engineered to clean in the tight crevices of a firearm while the curved pick is designed specifically for the locking lugs of an AR-style rifle with a 90 degree bend to clean the back side of the locking lugs.

Locking Lug Scraper

Designed specifically for the locking lugs of an M4/M16 with a 90 degree bend to clean the backside of the locking lugs.

Brass Scraper

The brass scraper is used to clean carbon deposits and other debris from the bolt face, rails or any other flat surface on a firearm.

Mini End Brush

This end brush can be used to lubricate the slide, but also has stiff enough bristles to dust off carbon and other loose debris.

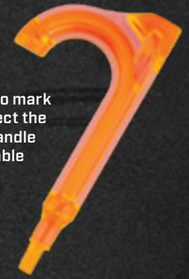

Female & Male Rods

The female and male rods act as handles, and can be added onto any Otis component with 8-32 threads for additional length during precision cleaning.

Chamber Brush (For AR platform rifles only)

The tapered bronze bristles scrub the chamber, neck and shoulder. The steel bristles at the base scrub the star chamber of the locking lugs. Standard 8-32 thread. See page 32 for brush sizes

Bore Reflector+

3-in-1 tool allows you to mark the firearm safe, inspect the bore or use as a pull handle when threaded on a cable

SHOOTER'S CHOICE

FP-10 Lubricant Elite® CLP

Increase total performance by reducing friction and wear while protecting against rust and corrosion. FP-10 removes carbon, lead & powder fouling. Comes in a half ounce bottle with a built-in applicator nozzle.

Short All Purpose Brush

Short All Purpose receiver brush has nylon bristles for aggressive (yet safe on all finishes) cleaning and is complete with male 8-32 threads so that it may be connected to any female accessory for ease of use.

8-32 Thread Connector

The thread connector has an 8-32 thread and allows you to combine two Memory-Flex® cables together, increasing the length for longer barrels.

Pin Punch

Easily knock out pins during disassembly with 3/32 inch pin punch. Use with a rod handle segment for better control.

FOR MORE INFORMATION See page 52 for more information about bore brush, mop & jag sizes, cotton patches and all purpose brushes or to inquire about component replacement

OTIS FLEX SYSTEM®

We're bringing function to your gun cleaning cases with the new ***Otis FLEX System®***. It brings perpetual customization and modularity to gun care, allowing you to organize, build, modify and stack in configurations to meet your gun care needs. Thoughtfully designed, the ***Otis FLEX System®*** ensures you're always organized with the right tools for the job.

Always Organized
Items easily insert into the various parts organizers for a secure fit.

Quick Access
Storage trays and swiveling rails offer quick access and removal of components.

Room to Expand
Designed for versatility, you can add or move various parts organizers around as you need.

Secure
Parts are held securely in place - even difficult to contain items like cables and patches.

Connect and Stack
The interlocking tabs allows you to stack cases and is compatible with all ***Otis FLEX System®*** cases.

Modular Design
Cases and parts organizers are compatible with other ***Otis FLEX System®*** cases and organizers. Mix and match for your gun care needs.

Breech-to-Muzzle® Cable Kits

Multiple SKUs Available

The Original Otis Method

Time-tested performance meets smarter organization. The Breech-to-Muzzle® system trusted for ***over 40 years*** now comes in a cleaner, more efficient storage solution with the ***Otis FLEX System®***. Interchangeable organizers provide quick access to Memory-Flex® cables, brushes, slotted tips, and all the essentials needed to clear fouling and debris, meaning less chaos and more confidence.

Each ***Otis FLEX System®*** cleaning kit is fully modular and contains the same core elements as the Otis cleaning kits you've come to know and trust, now in a more organized approach to gun care. Items may vary based on caliber, and some kits may include specialized tools exclusive to a particular firearm's need (looking at you, AR-15), but everything comes in a case that keeps everything easily accessible and customizable.

RIPCORDS®

Multiple SKUs Available

Pull-Through Bore Cleaner

Ripcord® delivers ***the best one-pass cleaning*** you can get. Run it through your gun from Breech-to-Muzzle®, with no gravity feed necessary. The rigid, helix-shaped rubber core keeps the cleaning surface pressed against the bore, engaging the rifling for an aggressive clean. The braided Nomex® surface can take up to 700° heat, so you can clean it at the range or in the field while the barrel's still hot. It's fast, effective and ultra-portable.

Each ***Otis FLEX System®*** cleaning kit is fully modular and contains the same core elements you've come to know and trust in a more organized approach to gun care. Items will vary based on caliber.

Otis Elite®

#FG-1000

Cleans all firearms from .17 cal through 12 gauge

The ***Otis Elite®*** delivers top notch performance and durability to the avid gun user by ensuring a proper Breech-to-Muzzle® cleaning experience unique to the Otis Brand. This universal gun cleaning kit comes complete with ***over 60 components*** for all rifles, pistols, shotguns and in-line muzzleloaders, including a full ***Tactical Cleaning Kit (#FG-750)*** all contained in a lightweight, portable case. Proudly made in America and built to last, the ***Otis Elite®*** is a must-have addition to any firearm collection.

★★★★★

The Elite is a great kit! Everything you need in one cleaning kit! Used it at my work bench to clean multiple firearms and was never looking for another tool.

Laura C.

★★★★★

Great experience from receiving the package to unboxing it. I've used Otis products for a couple years now and nothing comes close. I love the fact it's all American based products.

Derrick R.

★★★★★

Has everything I need to keep my firearm collection in great shape. Even comes with a mini kit to take on the fly so you don't have to tote around the larger bag. Very happy with the purchase, will definitely go back to Otis for all my gun cleaning needs to include gift ideas.

AR Elite Range Box

#FG-4016-AR

Cleans .223 cal/5.56mm AR-15 Pattern Rifles

For the AR owner who has it all, the ***AR Elite Range Box*** is the gun cleaning kit that has it all – and more for AR-15 style rifles. This universal gun cleaning kit provides proper Breech-to-Muzzle® cleaning for AR-15 style rifles plus all the tools you need to pick, scrape and clean caked on carbon and fouling. Properly make sight adjustments and keep your optics clean. Breakdown your ARs safely without fear of marring with the included bench block. This comprehensive range box includes .223cal/5.56mm gear: ***MSR/AR Cleaning Kit, B.O.N.E.® Tool, Star Chamber Cleaning Tool*** and replacement pads, extra bore brushes & mops, ***Ripcord®***, All Purpose brush pack, gun cloth, gun towel pack, sight adjustment tool, lens cleaning kit, extra patches and Shooter's-Choice ***FP-10 Lubricant Elite® CLP.*** Proudly made in the U.S.A., it includes over 40 components plus 100 cotton cleaning patches all contained in a portable range box that doubles as a gun vice for stability while cleaning.

★★★★★

This kit has everything I need. The rifle mount is a nice added bonus. It holds my MSR style nicely. I highly recommend to anyone.

Jared F.

Includes AR-15 Magwell stand & two holding arms that allow you to rest rifle while apply solvent or perform cleaning tasks.

- Pistol Cleaning Mat *(#RW-3801, more on page 50)*

Personal Protective Equipment

- Ranger 26dB Passive Earmuffs
- Eye Protection

Additional Items

- Targets *(x10)*

★★★★★

My son recently completed his pistol permit course and trainer strongly encouraged everyone to get safety gear and a cleaning kit, among other things. After a quick search we found this and it's perfect. Everything you need and fits in his gun range bag. Bought a second one for my husband for his birthday and he loves it for his rifles. Thanks Otis!

Sandy C.

Tactical Cleaning Kit

#FG-750

Cleans Rifles, Pistols & Shotguns

- Small & Large Slotted Tips
- Small & Large Obstruction Removers
- Bore Reflector+
- Instruction Manual

★★★★★

This system is simply the best way to easily clean and maintain my rifle. The 360° round patch system feels so much better than the little traditional square patch. Will never use anything else.

William P.

Universal Pistol

#FG-610

Cleans all pistols from .22 through .45 caliber

- 4 x 4 x 2½ inch Soft Pack

- Small & Large Slotted Tips
- Obstruction Remover
- Male Rod Handle
- Bore Reflector+
- Instruction Manual

★★★★★

It works great easy and compact. I have used Otis since the mid 80s when they first started. They helped me get the parts I needed to clean my 17 rem which I took on many coyote hunts. And it saved my hunts several times.

Lynn G.

Universal Shotgun
