EARSHIELD

Ranger 22 dB Bluetooth Earmuffs

#FG-ES22B-BK

The EarShield® Ranger Electronic Earmuff with Bluetooth offers up this triple combo in a sleek, compact earmuff. These slim, low profile muffs with adjustable headband boast a 22dB noise reduction rating. Additionally, they have a fast attack time of 0.01 second for optimal noise blocking over 82dB while minimizing interruption of ambient hearing. Ear cups are soft & comfortable for extended wear and are easily replaceable with the snap-in design. These earmuffs are compact and foldable. With sound activated compression & an omnidirectional microphone, these earmuffs deliver maximum ambient sounds at a safe volume level. They offer up to 5x amplification and are tuned for sound clarity. Utilizing Bluetooth technology, you can make & receive calls or listen to music from your device. Separate volume control dials deliver the exact volume desired for each function. An auxiliary jack and cord are included for a wired connection from the earmuffs to a device.

Ranger 26 dB Passive Earmuffs

#FG-ES26P-BK

EarShield® introduces the Ranger Passive Earmuff, boasting an NRR of 26dB. The soft ear cups have a slim, slow profile to limit interference during activities, such as shooting, and the adjustable headband makes for comfortable extended wear. These earmuffs are compact and foldable, making storage and transport easy. No bells, no whistles, simply reliable hearing protection.

33 dB Foam Earplugs

#FG-ESH-FPNC50

Simple, effective and portable, these Premium Foam Earplugs are perfect for the range, workshop, garage and more. Toss a 50 pair can in your range bag and you'll always have ear protection. As a bonus you'll also get a water-proof screw top canister that holds 2 Earplugs that can clip onto any keyring or strap.

Ranger 23 dB Electronic Earmuffs

#FG-ES23E-BK

EarShield® Ranger Electronic Earmuffs offer protection against harmful noise coupled with an ultra-fast attack time for uninterrupted hearing of ambient noise – like range commands. Slim low profile cups, composed of comfortable gel, also feature a cutout for an improved cheek weld without sacrificing effectiveness, and the adjustable headband ensures a proper fit and the soft band makes for a comfortable wear. These earmuffs boast a Noise Reduction Rating of 23dB. Plus the sound compression technology coupled with the omnidirectional microphones ensure maximum environmental sounds at a safe level and the 0.5 millisecond attack time is ultra-fast and offers uninterrupted hearing. The compact, folding earmuffs are also easy to store at home or in your range bag. An auxiliary jack and cord are included for a wired connection from the earmuffs to a device.
